

# Academic Renewal Plan: Request for Academic Renewal

*\*please refer to [policy ST12](#) for more information on the policy and procedure*

## Preparation for Academic Renewal appointment.

**Directions:** Through a series of questions listed below, please reflect on the reasons that you are requesting academic renewal. Some of the more common challenges that lead students to this request are related to university transitions, time management, study skills as well as family and personal concerns. Please come to the advisor meeting ready to discuss any challenges you have experienced that contribute to your request. Please also consider your future plans and how your renewal request may impact these plans.

Students should also consider how they will plan to work through any future challenges they might encounter. It is recommended that students start building towards their success by researching the support available through student support services. For a list of support services visit: [kpu.ca/current-students/support](http://kpu.ca/current-students/support)

1. Describe the challenges you have experienced which led you to this academic renewal request and how you have addressed them.
2. An academic renewal request can only be granted once. Describe resources that you can use to support and maintain your success at KPU.
3. What are the reasons you are requesting academic renewal at KPU at this time?
4. How will your completed credential at KPU further your long-term goals?

5. Have you changed or reconsidered your career goals recently? If yes, what led you to this shift?

6. What are the implications of your academic renewal request on your future academic goals?

7. What are your plans for the next two to three semesters? How many courses will you take per term? Please review your credential requirements with an advisor to plan realistically how to make good progress.
