DESCRIPTION

The Bachelor of Arts, Minor in Geography, provides an undergraduate degree option for students wishing to combine the study of geography with another disciplinary focus. Students will develop a deeper understanding of the interconnection of the natural and social environments, with particular attention to the urban setting of human activity.

In the first two years of the program, students take introductory courses in human and physical geography, a course in GIS (Geographic Information Systems), a course in regional geography, and a course in urban geography. There are also requirements, as defined in the BA degree framework, for quantitative courses, and courses in English and other disciplines.

At the end of year two, students who have completed the appropriate courses will qualify for an Associate of Arts or Associate of Science in Geography. The end of year two is when most students officially declare their Minor in Geography at Kwantlen in order to pursue years three and four of Kwantlen's BA programs.

In year three of the BA Minor in Geography, courses focus on geographic theory, further sub-areas of human geography, and the integration of physical and human geography. Year four is comprised of an advanced, applied GIS course and a course focusing on contemporary geographic issues, with new topics and content developed on an annual basis.

CAREER OPPORTUNITIES

Studying geography can lead to a wide range of careers in fields like urban and regional planning, geotechnical engineering, retail market planning, environmental consulting, meteorology, First Nations governance, Geographical Information Systems (GIS) and international development. Geography also provides a versatile background for professional programs like teaching, law, engineering and business.

The BA minor in Geography at Kwantlen is most likely to be paired with a minor in areas like History, Sociology, English and Mathematics. Such combinations may lead towards a geography-related career, a teaching degree or an advanced degree

program. Other fruitful pairings would be with disciplines that also employ GIS, such as Anthropology, Business and Criminology.

PROGRAM ADMISSION REQUIREMENTS

In addition to Kwantlen's General university admission requirements, including the undergraduate-level English Proficiency Requirement, the following program admission requirements apply:

Year One Admission:

- English 12 with a 'B' (or equivalent)
- Mathematics:
 - Minimum grade of 'C' in Pre-Calculus 11, Principles of Mathematics 11, or Applications of Mathematics 12 (or equivalent); or
