

An elevator that has descended from the 50th floor is coming to a halt at the 1st floor. As it does, your apparent weight is

1. More than your true weight.
2. Less than your true weight.
3. Equal to your true weight.
4. Zero.

An elevator that has descended from the 50th floor is coming to a halt at the 1st floor. As it does, your apparent weight is

-  **1. More than your true weight.**
- 2. Less than your true weight.
- 3. Equal to your true weight.
- 4. Zero.
