Connecting to Kwantlen's Secure Wi-Fi with iPhone

1. Launch the **Settings** app.

- 2. Tap **Wi-Fi**.
- 3. Tap KPUSecureStudent or KPUSecureEmployee.

4. Students: Enter your student number as your username. Enter your PIN in the password field. Tap Join.

Employees: Enter your **short name** (eg. jsmith) as your username. Enter your password. Tap Join.

Enter Password

- You may be prompted with a certificate. If it is for either sac-radius-01.kpu.ca, sacradius-02.kpu.ca, or rc-radius-01.kpu.ca, and was issued by DigiCert, tap Trust.
- After a few seconds, a checkmark will appear next to the network you selected. You are now connected to Kwantlen's secure wireless network.
